New Ideas to Accelerate Chesapeake Bay Restoration

Join us for a one-day conference aimed at accelerating Bay restoration goals. Sessions will focus on:

- Highlighting emerging scientific discovery, policy development, and implementation by the public or private sectors;
- Enhancing BMP implementation of water quality goals to meet the TMDL, ecosystem health, and practices that have a synergistic impact on reducing greenhouse gas emissions; and
- Developing and implementing a communication plan that translates and transmits conference findings to a broader audience, particularly leading environmental decision-makers.

Monday, January 25, 2016
9:00 am to 4:30 pm
The Chesapeake Beach Club
500 Pier 1 Road
Stevensville, Maryland 21666
