

About this data:

Precipitation Data:

**All precipitation data is verified and is considered reasonably accurate.
Frozen precipitation is reported after thawing.**

Precipitation amounts from 1983 through May 2008 have been collected using the
Belfort Universal Precipitation Gauge: Series 5-780

727 South Wolfe Street

Baltimore, MD 21231

Tel.: (410) 342-2626

Fax: (410) 342-7028

On-line specifications here:

http://www.digiwx.com/content/precipitation_s5780_5915.cfm

This is a weighing type precipitation collector with an eight-day chart for manual reading

Beginning in June 2008 we changed the type of precipitation gage to an electronic weighing bucket

NOAH IV Precipitation Gauge

ETI Instrument Systems

1317 Webster Avenue

Fort Collins, Colorado 80524

970.484.9393

On-line specifications here:

<http://www.etisensors.com/noahiv.htm>

This is a weighing bucket also, but data is measured electronically.

Temperature Data:

**Temperature data is collected electronically and is considered
reasonably accurate.**

Temperature data is measured with a **HMP45C-L, Vaisala Temperature and RH Probe**
in an aspirated radiation shield at a height of approximately 6 feet.
